

# DENTAX

## Smart-Tech Dental Practice Management

Dentax brings together every tool your clinic needs—appointments, records, HR, inventory, and more—into one seamless platform built for modern dental practices.

## Do You Know ?

The majority of dental clinics in Sri Lanka still rely on paper records, manual appointment books, and disconnected software tools — leading to inefficiencies, patient delays, and data risks.

## Why Is It Important ?

Digital transformation in dental care is essential.

Dentax unifies clinic operations in a secure, cloud-based platform—reducing admin work, enhancing patient experience, and preparing your practice for a smarter, tech-driven future.
